

# Industrial Equipment for Water Treatment - Demineraliser

## Main features of Demineraliser

- > Design configuration can be twin-bed, mixed-bed to suit water quality requirement.
- > Quality up to less than 0.1 ppm TDS.
- > Vessel designed and fabricated to ASME code for unfired pressure vessel.
- > Quality ion-exchange cation/anion resin
- > Vessel internal to be sand blasted to SA 2 1/2 and rubber lined for corrosion protection.
- > Well designed bottom distribution system c/w quality PP nozzles ensures uniform distribution flow of water through the resin bed.
- > Regeneration can be cocurrent or counter-current.
- > Operation can be either automatic, semi-automatic or manual.
- > Custom make to meet application.

## Applications:

- Boiler feed water
- Power generation
- Ultrapure water
