

Industrial Equipment for Water & Waste Treatment - Pressure Filter

Applications:

- Potable water
- Boiler feed water
- Power generation
- Swimming pool
- Industrial cooling water
- Water recycled plant

Main features of Pressure Filter:

- > Filtered water quality ranges from 10 - 30 μm .
- > Vessel designed and fabricated to ASME code for unfired pressure vessel.
- > Various types of filter media used depending on design and application - sand, anthracite, activated carbon, garnet, manganese greensand and etc.
- > Vessel internal to be sand blasted to SA2 1/2 and painted with epoxy paint for corrosion protection.
- > Well designed bottom distribution system c/w quality PP nozzles ensures uniform distribution flow of water through the filtering layers.
- > Operation can be either fully automatic, semi-automatic or manual.
- > Custom make to meet application.
